Dimensions

Housing

Die-formed heavy gauge steel with high-gloss, baked white enamel finish over rust inhibiting phosphate coat with removable wireway access panel. Ample knockouts provided on side, back and ends. Shipped fully wired and assembled, including socket saddle. Simply flip up socket bar and attach wireway cover with turn fastener provided. Machine installed shunts eliminate loose socket bar connections on electronic strips.

Options

Modular wiring, white or silver asymmetric or symmetric reflectors, and emergency lighting battery packs are available options.

Electrical

Fully wired for UNV 120-277V, 50-60Hz operation with thermally protected, automatic resetting Class P, sound rated A ballast as standard unless otherwise specified. UL listed damp location.

Mounting

Combination end plate/joiner connect units for continuous row or wire through, see CHJ on page 95. Optional plug-in wiring system described in detail on page 94.
